inaya

inaya Health Pricing
2022

Cost Types

inaya has two types of costs:

- Implementation Costs
- Running Costs

Implementation Costs

Implementation costs are the initial costs required to implement inaya at your site. Because of this they are required to be paid at once before inaya is installed and implemented at your site.

Running Costs.

Running costs are required to maintain a healthy running implementation of inaya. They last for the lifetime of the product and are charged on a monthly basis. This covers the cost of

- License
- Support And Maintenance
- Offsite Backup
- Continuous upgrades

For clients who have a *good internet connection* and prefer **not** to have a physical server on site they can opt to rent cloud servers via the cloud hosting plan.

inaya Editions

Furthermore, inaya is sold in three editions.
- Lite Edition
- Standard Edition
- Premium Edition

The editions differ in the number of features they have with Lite Edition having the smallest amount of features and the Premium edition having the largest amount of features.

Lite Edition

inaya Lite Edition is the most affordable edition of inaya. It has just the minimum amount of features to have a health service provider running. It includes all the features of inaya except the ones found in Standard Edition and Premium Edition.

The features it contains are;
- Patient Electronic Medical Records
- Patient Flow management by Ques
- Investigation Request and Reports Workflow
- Pharmacy and Prescriptions
- Point of Sales(POS)
- Cash Box management
- Stock management
- Management of employee records
- Advance payments management
- MTUHA reports
- Laboratory logbook

Standard Edition

The standard edition of inaya is the most pragmatic edition of inaya. It adds a couple of features to the Lite Edition to tackle more complicated problems of your organization.

The features it adds are:
- In-Patient Management
- Postpaid(Insurance / Company) customer management
- Revenue Sharing with Practitioners and Partners
- Vendor Based Procurement
- Diary
- Loyalty Programmes
- Vaccination
- Chat
- Sample Based Lab Management System (LMIS)
- NHIF Integration (e-claim automation)

Premium Edition

The premium edition of inaya is the most comprehensive and versatile edition of inaya. It lives to the holistic approach of inaya by being able to touch most (if not all) aspects of running a Health Service Providing Institution.

Its built on top of the standard edition and adds the following features:

- Inventory Requisitions
- Purchase Requisitions
- GRN
- Fixed Assets
- IFRS Accounting
- Payroll
- Budget

Pricing

Fixed Pricing Mode

In this mode you will pay the implementation fee once before the start of the implementation. After implementation is over you will then start to pay a fixed amount per month.

The pricing is based on the number of users that will be logged in at the same time. We call these **live users.**

Implementation Costs -- TZS

No Of Live Users	Lite	Standard	Premium
5	1,000,000	1,500,000	3,000,000
